

AmeriList Pre-Screened Credit Database

100,000,000 | Total Universe

Summary Description

The AmeriList Pre-Screened Credit Database represents one of the highest quality sources of credit data on the market today. This file is compiled from the major credit bureaus, ranking consumers according to their likelihood that their credit obligations will be paid as agreed. With credit scores constantly changing, so does this database, which is updated continuously to reflect changes in the consumers credit score and lending practices. Using the recency of this file, also combined with the many financial and demographic selects, you are sure to reach your exact target audience, lowering your marketing cost, lowering risk, and increasing your return on investment.

Recommended Usage: Mortgage Companies, Auto Dealerships.
