

Sometimes the drive home is just too much to face...

- If you ever have need of a warm bed on a cold and icy night.
- If you see the snow begin to fall and dread the journey westward for you or a loved one.
- If, on a dark and dangerous eve, you find that four wheel drive is not enough.

We will keep you safe and warm in the center of town and buy your breakfast in the morning.

*We have a standing snow rate of **\$55 per night** through the end of May.*

On any snowy night simply show a drivers license at our desk with a mountain address to receive this special rate.
