How Our Data is Compiled

Our Truck Fleet Operators Database is derived using public and proprietary feeds both online and offline including state and federal government records such as department of transportation registrations, various licensing boards, trade publication subscriptions, membership rosters, trade show attendee & registers, various transportation website. The data is then crossed against our national business database that is compiled and maintained from DBAs, Incorporations, yellow page and white page telephone directories, annual reports, 10Ks and other SEC filings. Not only do we cross reference a multitude of sources to ensure the most accurate data, we also verify each business by phone on an annual basis to keep our records up-to-date. Our compilation team processes the entire database against the National Change of Address (NCOA) file monthly. Our Business more than 95% deliverable & guaranteed!
