Description Summary

Diagnostic imaging describes a variety of viewing techniques to help medical professionals figure out the causes of an illness or injury and determine a diagnosis. Doctors also use diagnostic imaging to track how well a patient's body responds to treatments for a fracture or illness. AmeriList provides accurate mailing, telemarketing, and email data to our clients. Our data is updated every month to guarantee accuracy and deliverability.

How Our Data Is Compiled

Our Diagnostic Imaging Centers Mailing List is derived from a multitude of public and proprietary feeds both online and offline including: lifestyle surveys, self-reported individuals, directories, and previous memberships/purchase history. When you use our data, you are guaranteed accuracy and deliverability. Our compilation team processes the entire database against the National Change of Address (NCOA) file monthly. This list is also CASS certified to ensure further accuracy.

Consider The Facts

- From 2014-2019, demand for imaging services rose as economic growth and healthcare reform legislation improved healthcare coverage in the U.S.
- The aging U.S. population and an increasing number of tests that are readily available for cancer and infectious diseases as a result of technological advancements and improved cost efficiencies will likely lead to volume growth

Recommended Usage

This mailing list is recommended for a variety of offers and promotions, including, but not limited to: businesses selling medicinal supplies, office supplies, medical devices, medical technology, software and more.
