## **Description Summary**

Dog owners are very caring and loyal to their companions. There are over 12 million dog owners in the United States. In addition to being highly dedicated, these consumers are constantly making purchases for their "best friends" like grooming, toys, pet supplies, kennels, training, and more. These owners would do anything to provide the best for their dog. It takes a lot to maintain the mess that comes with owning a dog, so these owners tend to seek out carpet cleaning, furniture repair/refurbishing, and others. AmeriList can arrange your dog owner data by income, age, presence of children etc.

## **How Our Data Is Compiled**

Our Dog Owners Database is derived from a multitude of public and proprietary feeds both online and offline including: surveys, self-reported individuals, and previous memberships/ purchase history. When you use our data, you are guaranteed accuracy and deliverability. Our compilation team processes the entire database against the National Change of Address (NCOA) file monthly. The list is also CASS certified to ensure further accuracy.

#### **Consider The Facts**

- Approximately 44% of all households in the United States have a dog
- Americans spend approximately \$5 billion on holiday presents for their pets

## **Recommended Usage**

This file is perfect for marketers who are trying to reach dedicated and loyal consumers who are willing to spend the necessary funds to make sure their "best friends" are living the good life. Marketing to dog owners would be useful for pet stores, grooming companies, dog food companies, toy companies, dog apparel companies, carpet and furniture cleaning, exterminators and veterinary services, and much more. This Dog Owners Database can be used for direct marketing to help businesses looking to make contact with dog lovers.
