The Standard Industrial Classification (SIC) System provides numeric codes to identify every type of business, profession, and institution in America.

They begin with major industry groups represented by the first two digits.

Two Digit Industry

01-09	Ag/Farming/Fishing
10-14	Mining
15-17	Construction
20-39	Manufacturing
40-49	Communications/Transportation/ Utilities
50-51	Wholesalers
52-59	Retailers
60-67	Finance/Insurance/Real Estate
70-79	Services
80-89	Professional Services
90-99	Government

These are further divided into 80 more specialized business types represented by the next two digits. Finally, these can be further defined into more specific categories which are represented by the final two digits.

For example:

15	= Gen. Building Contractors
1521	= Residential Contractors
1521-01	= Deck Contractors

SIC Codes allow you to target decision makers within the precise kinds of businesses who need your products and services.

N.E.C. = Nowhere Else Classified
